Question:
lf the points $\mathbf{A}\,(1,2)$, $\mathbf{O}\,(0,0)$ and $\mathbf{B}\,(a,b)$ are collinear, then find the relation between a and b.

Solution:

Variable	Description
A	Point $(1,2)$
0	$(0,0)$ point
B	(a,b) point

TABLE I: Variables Used

First we should construct the collinearity matrix with the given points A,O,B

$$\begin{pmatrix} O-A \\ B-O \end{pmatrix} \tag{1}$$

$$\begin{pmatrix} -1 & -2 \\ a & b \end{pmatrix} \xleftrightarrow{R_2 \to R_2 - aR_1} \begin{pmatrix} -1 & -2 \\ 0 & b-2a \end{pmatrix} \tag{2}$$

rank should be 1 for collinearity, for that R_2 must be 0, so

$$b - 2a = 0 \tag{3}$$

$$\therefore b = 2a \tag{4}$$

The required relation between a, and b is, $b = 2a$
